NEED A CONTRACTOR?

Contractor Referral Program

At StonePlace, we recognize that it is hard for a customer to have confidence in selecting the right contractor to complete your landscape project. You can go through the Yellow Pages, call friends, research the Internet and you still might not get the reliable, reputable contractor that you are looking for. StonePlace's Contractor Referral Program alleviates much of the stresses in selecting and hiring a contractor. Commercial or residential project, StonePlace will help you to find the best contractor for the job!

Here is how it works:

Contact StonePlace and supply us with the information for the project. In addition to personal contact information, we will ask you details of your project scope, materials and timeline. Once we have collected all of the pertinent information, we will provide up to three (3) contractors the details of your project.

Our contractors go through an extensive pre-qualification process and we select the ones that are best able to complete the work you require in the time frame you need. The contractors will then get in contact with you and set up an appointment to come and give you an independent, free, no-obligation quotation. By sending up to 3 contractors to your location, you are getting multiple comparable quotes.

Our contractor referral service is also FREE!

We want you to have confidence that your project will meet or exceed your expectations.

Please email us at sales@StonePlace.com or call one of our locations and speak to a representative from StonePlace to start your contractor referral. Or visit us online and fill in the contractor referral form.

Let us help make your landscape dream, a reality.

Visit stoneplace.com or email sales@StonePlace.com for information.
