EXPAND YOUR HOME
A new outdoor living space can add functional square footage to your existing home by providing a new space to relax, dine and entertain. Consider first how you would like to use the space and then design it as an extension of your interior decorating style.

OUTDOOR ROOMS
Distinct areas for cooking, eating and relaxing can be created, even in a small space, by changing the color or style of paver or by adding a contrasting paver border to define the different spaces. Using pavers to create an area rug can help visually ground furniture groupings. In a larger space, vertical elements like steps, low-walls and pillars can be used to create the feeling of rooms.

Curb Appeal
A paver driveway is an investment that adds instant curb appeal and value to your home. When choosing a paver product it’s generally a good idea to complement the main color of your home rather than try to match it. Then, consider borders and accents to draw out specific colors from your home and create continuity. Adding vertical features like pillars, planters and decorative walls further enhances the beauty of your driveway.

Practical Design
Consider how guests will get from your driveway to your door. If your driveway abuts a wall, slope or garden, add an extra four feet to the width so car doors can be comfortably opened for passengers. Winter brings snow – consider where you’ll pile it. And choose a paver that can withstand de-icing salts.

Think Green
Permeable pavers allow rainwater to flow between the joints and through special base materials so that it can be absorbed into the subsoil below. This provides a dual “green” benefit; not only does it reduce the amount of water that flows into storm sewers but it also provides moisture to surrounding plant material. Reduced puddling on the driveway surface also means that there is less ice build-up in winter months.

Welcome Guests
A great looking front entrance gives guests a warm welcome. Attractive steps that are wide enough to easily navigate, low garden walls and planter boxes to frame softscaping, and smartly placed lighting all contribute to a cozy feeling and will help smooth the transition from the street to your home. As a general rule, a walkway should never be less than four feet in width.

A Place to Sit
Even a modest front yard can usually accommodate a small courtyard seating space, where a morning coffee can be enjoyed or parents can observe their children playing with neighborhood friends.

WELCOME GUESTS
A great looking front entrance gives guests a warm welcome. Attractive steps that are wide enough to easily navigate, low garden walls and planter boxes to frame softscaping, and smartly placed lighting all contribute to a cozy feeling and will help smooth the transition from the street to your home. As a general rule, a walkway should never be less than four feet in width.

A PLACE TO SIT
Even a modest front yard can usually accommodate a small courtyard seating space, where a morning coffee can be enjoyed or parents can observe their children playing with neighborhood friends.
SIZE MATTERS
When planning your pool deck four feet is the minimum perimeter around the pool for basic access. However, for entertaining or sunbathing, consider a larger size and factor in your outdoor furniture!

SAFETY CONSIDERATIONS
The paver you choose to surround your pool needs special consideration for bare feet! Choose a color that won’t absorb too much heat from the sun. A smoother surface is pleasing to walk on, but make sure it’s sufficiently non-slip. For coping around the pool edge: avoid products with abrasive edges; use a contrasting color or inset border to help define the edge; and add lighting to illuminate for night swimming and to define pool edges and steps for greater safety.

AMPLIFY THE DRAMA
A standard pool shape can become a dramatic focal point by adding vertical elements like low walls, planter boxes and water features. Likewise, a hot tub can transform into a dramatic feature by surrounding it with stone for a custom built look.

SEAT WALLS
Outdoor furniture is often over-sized relative to indoor furniture so be sure to design your patio with these generous proportions in mind. For smaller spaces or families who like to entertain, seat walls are a great solution for creating extra places for people to sit without the need for bulky furniture.

EXTEND THE SEASON
Fire features add visual interest and warmth that makes the space more enjoyable to use in cooler weather. Building lighting into low walls, steps and pillars can draw people outside in the evening, and add visual appeal from inside the home.
Container gardens and raised beds take many forms and require a light-weight, porous soil. Fortunately Gro-Max® provides the right balance in a complete soil blend that will endure. Nearly all the ingredients in Gro-Max® are composted – a process that kills weed seeds but generates a wide spectrum of microbes for soil health. Gro-Max® follows a single recipe and is a consistent product in bulk depots across Ontario.
Mulch

All natural, no recycled. 1 cubic yard covers approx. 100sq.ft, 3” deep. Dye color varies batch to batch.

### NATURAL RED PINE BARK MULCH (RUSTIC)

- 2 cubic foot bag: $5.99/bag
- 1 cubic yard: $48.99/yd

### ENHANCED BLACK CEDAR BARK MULCH (BLACK BEAUTY)

### ENHANCED BROWN BARK MULCH (MOCHA BROWN)

- 2 cubic foot bag: $5.99/bag
- 1 cubic yard: $44.99/yd

Buy in BULK & SAVE!
BEDDING MATERIAL
The right bedding material installed at the right depth is vital to the performance of your pavement. It provides a nice smooth surface for laying pavers and allows water to quickly drain away from the surface.

REMEMBER
A quality project is built upon a solid foundation. For this reason, we recommend hiring a professional contractor.

DESIGNED TO PERFORM

The rich look of natural grass with our environmentally-friendly synthetic grass and turf products – with no harmful environmental effects. Designed for the ever-changing Canadian climate, using breakthrough materials and manufacturing processes, our grasses look and feel realistic and beautiful for years. Heat and frost resistant, UV stabilized.

Easy installation, and requires no mowing, watering, chemicals, fertilizing or insecticides – it’s great for pets. Frees up your time for the things you enjoy!

For commercial and residential landscapes – synthetic grass always has that fresh cut look, even in the winter. Synthetic products are anti-microbial so there’s never a worry about harmful bacteria building up or allergic reactions caused by grass. Non-flammable, anti-acid yarn resistant to chemicals.

Great for landscaping applications, playgrounds and dog run areas.

Custom putting greens for endless hours of practice putting or entertaining guests. Take strokes off your short game by creating a practice area in the backyard, office or basement. Our putting greens react to putts and chips like natural grass greens. Designed to give true ball roll and bounce reaction.

NEW LAWN SEEDING TIPS
1) Apply 10 cm of good top soil, minimum
2) Apply starter fertilizer at recommended rate
3) Apply seed evenly (approx. 5-7 lbs /100 sq.ft.). If using a spreader, apply half horizontally, the other half vertically
4) Rake or roll the soil lightly after applying the seed
5) Keep the area moist by frequent light watering, until the seed is established
6) Depending on conditions, some grass species germinate in a week, others in 4 weeks
7) Seed germinates best at 15°-26° C, and takes longer to emerge at cooler temperatures.
8) For best results apply in early to mid spring or early fall.

OVERSEEDING TIPS
1) Rake bare or thin areas vigorously to loosen soil and remove debris
2) For thickening up, apply at half the recommended rate.

  - Winter Marvel

**U-CARA MULTI-FACE WALL SYSTEM**

The U-Cara Multi-Face Wall System, exclusive to Unilock, represents a revolution in wall design. With U-Cara it’s now possible to design walls, pillars, planters, fire features, grill islands and more, with the refined surface and long-lasting colour of exclusive Unilock EnduraColor finishes.

**U-CARA MODULAR SYSTEM**

The U-Cara Modular System offers a variety of stainless steel frames that can be mixed and matched to construct vertical features like grill islands. Speak to your contractor to select a design and a U-Cara fascia panel finish to suit your project.

2" x 36" x 96" - Special Order ........................................................................................................ from $725.84/ea.

Antique Limestone | Black | Blue Ice | Hampton Limestone | Ivory Coast | Midnight Black | Slate | Sagebrush | Slate Grey
### Natural Stone Steps and Treads

#### Midnight Black Steps
- 3 side rock faced: 6” x 16” x 48”; 6” x 16” x 60”; 6” x 16” x 72”
  - from $505.35/ea.

#### Blue Ice Treads
- Rockfaced: 2” x 12” x 48”; 2” x 12” x 72”; 2” x 16” x 48”; 2” x 16” x 72”
  - from $63.65/ea.

#### Hampton Limestone Steps
- 3 side rock faced: 7” x 16” x 48”; 7” x 16” x 60”; 7” x 16” x 72”; 7” x 16” x 96”
  - from $327.05/ea.

#### Blue Ice Steps
- Rockfaced: 2” x 12” x 48”; 2” x 12” x 72”; 2” x 16” x 48”; 2” x 16” x 72”
  - from $67.38/ea.

#### Hampton Limestone Treads
- Rockfaced: 2” x 12” x 48”; 2” x 12” x 72”; 2” x 16” x 48”; 2” x 16” x 72”
  - from $72.78/ea.

#### Slate Grey Treads
- Rockfaced: 2” x 12” x 48”; 2” x 12” x 72”; 2” x 16” x 48”; 2” x 16” x 72”
  - from $72.78/ea.

#### Slate Grey Steps
- 3 side rock faced: 7” x 16” x 48”; 7” x 16” x 60”; 7” x 16” x 72”; 7” x 16” x 96”
  - from $406.20/ea.

#### Hampton Limestone Treads
- Rockfaced: 2” x 12” x 48”; 2” x 12” x 72”; 2” x 16” x 48”; 2” x 16” x 72”
  - from $88.36/ea.

#### Bullnose: 2” x 12” x 48”
- from $94.42/ea.

### Hollow Natural Steps
- 7” x 16” x 48”
  - from $399.80/ea.

### Additional Options
- Blue Ice
- Hampton Limestone
- Slate Grey

COOKING IN A STONE OVEN

Cooking in a stone oven is a versatile way to entertain and feed guests, or make rustic, home cooked meals for yourself. The properties of a stone oven floor allow for absorption and even distribution of heat from a wood fire. This means uniform and faster cooking. By manipulating the fire and distance to the flame, it is possible to cook dishes by roasting, grilling and baking. For skilled chefs with stone oven experience, cooking temperature and style can be monitored by eye, but the use of thermometers will aid the average backyard cooking enthusiast.

PRE-HEATING FOR HIGH HEAT

It’s important to get your oven up to temperature; use only untreated, dried (kiln dried if possible) wood.
- Chop wood into kindling approximately 3” in diameter and 10” long
- Start the fire with newspaper, or a natural fire starter, in the centre of the oven where air can get to it, with the kindling
- As the fire grows feed it more kindling, but if flames reach the mouth of the oven, wait before feeding and do not remove any burning material
- Let the fire burn for 30 minutes to heat the oven
- When the oven approaches the desired cooking temperatures, add small and larger logs
- At 450°C the oven is ready for pizza!

COOKING PIZZA IN A STONE OVEN

Allow the oven to come to an even temperature of 400°C
- Move the fire to one side of the oven where the flames will arch across the top of the oven
- Place the pizza on the oven floor beside the fire and remember to rotate it for even cooking
- Add wood to the fire as needed to maintain heat (every 15-20 minutes)

TIPS

If you are cooking multiple dishes in a row, or for an extended period of time, rotate the fire between the two sides of the oven to keep the heat distribution in the oven even. High heat cooking is also great for caramelizing and browning dishes as well as cooking appetizers and certain types of bread.
Cast Planters
Barkman's Cast line features clean lines and a beautiful, raw concrete finish.

BRUSSELS DIMENSIONAL STONE

Barkman Landscape Design
SELF WATERING INSERT FOR PLANTERS

Keeps plants healthy and beautiful – available in 2 square & 2 round sizes that fit most Barkman planters (larger planters simply use 2 inserts connected to a single drain hole).

How it works: Insert A is placed directly on a layer of clean river rock B, lined with landscape fabric C. Cover top and sides with topsoil D. Pour water into filling tube E to fill water reservoir. Water is wicked up filter columns F (lined with landscape fabric to prevent soil from entering the water reservoir, not shown) providing plants with their main source of water, when needed. Reduces maintenance costs.

CAST PLANTERS

Strong and substantial, Planters need to be tough, especially for public spaces. Muscari is especially solid and substantial.

51.8” x 23.62” x 19.69” H ............................... from $466.65/ea

74.8” x 35.43” x 24.80”; Brown, Grey ............................. from $483.65/ea

74.8” x 35.43” x 32.68”; Brown ............................. from $558.25/ea

MUSCARI PLANTER

Neutral cube-like shape blends well in urban settings. Increase height with an add-on layer.

Square: 27.56” x 27.56” x 18.5” ............................... $476.45/ea

PAVING STONE SEALER

— NEW AND IMPROVED —

PROTECT ENHANCE RENEW

• We made it stronger yet eco-friendly to give you the ultimate surface protection
• We made it more durable and water resistant
• Enhanced formula includes:
  - Ultra low odour solvents
  - More blush resistant components
  - Longer lasting resins
• Now available in four different looks:
  - High Gloss Wet Look
  - Semi Gloss Wet Look
  - Matte Finish
  - Natural Look Water Repellent

Make it Last. Make it Better!

PAVING STONE SEALER

High Gloss, 1 gal. .................. $49.50/ea.
Semi Gloss, 5 gal. ................. $217.70/ea.
Semi Gloss, 1 gal. ................. $50.65/ea.
Natural, 5 gal. ..................... $205.56/ea.
Natural, 1 gal. .................... $46.99/ea.

NATURAL STONE SEALER

Natural, 1 gal. .................. $66.73/ea.
Natural, 32 oz .................... $29.35/ea.

CONCRETE SEALER

High Gloss, 5 gal. .................. $217.70/ea.
High Gloss, 1 gal. .................. $49.50/ea.
Semi Gloss, 5 gal. ................. $217.70/ea.
Semi Gloss, 1 gal. ................. $50.65/ea.

ASPHALT PROTECTION

5 gal. ................................... $70.39/ea.

LAQUER THINNER

1 gal. .................................... $27.05/ea.

STRIP-ALL CLEANERS

5 gal. .................................... $147.21/ea.
1 gal. .................................... $30.77/ea.

CONCRETE PAVING STONE CLEANERS

Grease Release solvent based cleaner. Remove oil, tar, coal tar, latex print, adhesives, rubber and acrylic driveway sealers.
32 oz. ................................. $18.92/ea.
Rust Remover
32 oz. ................................. $17.76/ea.

CLEANERS

Oil Off industrial strength degreaser breaks down oil and grease on contact. Biodegradable & garden friendly. Used on paving stones, concrete, asphalt, tires and rims, car engines and barbecues.
1L ................................. $17.76/ea.
Efflorescence Cleaner
Does not contain muriatic acid
2L ................................. $29.41/ea.

NATURAL STONE ENHANCER SEALER

946mL ......................... $87.04/ea.
3.8L ................................. $243.04/ea.

Sealers

519.888.9992  StoneLandscapes.ca  101
**Mortar and Joint Sands**

**GATOR MAXX G2**
- **No dust** • haze free • no blower • one watering!
- For paver and natural stone joints up to 4”.

**GATOR DUST**
- POLYMERIC STONE DUST
- Residential applications to joints 1/2” to 6”.

**UNILOCK EASYPRO:**
- Choose from three types of jointing material with varying durability & cost. We can help explain which is right for your project.

- **MORTAR**
  - HIGH PERFORMANCE
  - Superior compressive strength, lower water usage, increased resistance to de-icing salts.

- **JOINT SAND**
  - BASIC JOINTING
  - PREMIUM MORTAR
  - POLYMERIC

**MASONRY JOINT SANDS**
- Covers 100-150 sq.ft. 50 bags/skid.
-使用表明数据：$9.99/bag
- $28.99/bag
- $27.04/ea.

**STONE LANDSCAPES.CA**

**Adhesives and Accessories**

**MCA MASONRY GRAB ADHESIVE**
- Fast dry
- 8 minute tack time – rapid cure formula

**STRONGHOLD FOAM ADHESIVE**
- High strength
- High performance
- Interior / exterior – paintable
- Seals & bonds wet or dry
- Water resistant
- Crack proof
- Mold resistant

**NEW GUN CLEANER**
- Removes fresh, non-cured polyurethane foam adhesive.
- Specifically formulated for Stronghold application gun.

**BLACK WATERFALL FOAM**
- Polyurethane. Nozzle fill joints & gaps between rocks to maximize water flow.

**NEW PRECISE APPLICATION ADHESIVE GUN**
- With Stronghold

**NEW PRECISE APPLICATION ADHESIVE GUN**
- With UCB
- $40.04/ea.

**PREMIUM MORTAR MIX**
- Premium
- High bond strength.

**PREMIUM MORTAR MIX**
- Superior quality.

**BRICK & BLOCK ADHESIVE**
- Eliminate nails, screws or clamps
- Non - sag, vibration and impact-resistant

**STANDARD HARDSCAPE ADHESIVE**
- High performance transparent sealant and adhesive.

**PRESSURE TUBING**
- Cures in 24 hrs under normal conditions
- Eliminate nails, screws or clamps
- Non - sag, vibration and impact-resistant

**NEW MORTAR AND JOINT SANDS**
- For laying masonry units. Contractor grade.

**JOINTING MATERIAL**
- Choose from three types of jointing material with varying durability & cost. We can help explain which is right for your project.

**BASIC JOINTING SAND:**
- To reduce the frequency with which you need to replenish, a joint stabilizing sealer is recommended.

**POLYMERIC SAND:**
- Uses a binding agent to stay in place longer. It’s not right for every project. Install with care to prevent hazing.

**UNILOCK EASYPRO:**
- The ultimate joint compound for paving stones. No-haze, epoxy resin product is puncture resistant, permeable and eco-friendly (made with 60% renewable products). Perfect for wide joints, but not for all applications.

**NEW IGAR INSTANT GRAB ADHESIVE**
- Fast dry
- High performance
- Seals & bonds wet or dry
- Even underwater
- Erosion due to wind, rain and freeze/thaw cycles.
- Weed and damage caused by burrowing insects;
- Erosion due to wind, rain and freeze/thaw cycles.
- For paver and natural stone joints up to 4”.
- For installing landscape blocks, steps & retaining walls.
- Bonds to brick, stone, slats, metal, wood, Masonry, Foam, Fiberglass, Plywood.
- Permanently waterproof, flexible, crack proof, mold resistant.
- Tensile strength 22 kg / cm².
- In 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**BRICK & BLOCK ADHESIVE**
- For installing landscape blocks, steps & retaining walls. Bonds to brick, stone, slats, metal, wood.
- Non - sag, vibration and impact-resistant
- Prevent hazing.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW STRONGHOLD FOAM ADHESIVE**
- High bond for: Concrete, Pavers, Stone, Bricks, Porcelain, Drywall, Wood, Metal, Polywood, Foam, Fiberglass, PVC.
- 5 minute tack time – rapid cure formula.
- 1 can of Stronghold – approx 6 large tubes of standard hardscape adhesive.
- Low temp formula.
- Adjustable bead size, less waste, no drip, no mess.
- In 24 hrs under normal conditions.
- Fast grab.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW GUN CLEANER**
- Removes fresh, non-cured polyurethane foam adhesive.
- Specifically formulated for Stronghold application gun.
- Simple to use – just screw cleaner onto application gun and squeeze trigger.

**NEW STRONGHOLD FOAM ADHESIVE**
- High bond for: Concrete, Pavers, Stone, Bricks, Porcelain, Drywall, Wood, Metal, Polywood, Foam, Fiberglass, PVC.
- 5 minute tack time – rapid cure formula.
- 1 can of Stronghold – approx 6 large tubes of standard hardscape adhesive.
- Low temp formula.
- Adjustable bead size, less waste, no drip, no mess.
- In 24 hrs under normal conditions.
- Fast grab.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.
- Clear, brown, cream.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

**NEW MASONBOND 400**
- High performance transparent sealant and adhesive.
- Seals & bonds wet or dry
- Even underwater
- Interior / exterior – paintable
- Environmentally friendly No VOC’s
- Tensile strength 22 kg / cm².
- Permanently waterproof, flexible, crack proof, mould resistant.
- Cures in 24 hrs under normal conditions.

**NEW MASONBOND 219**
- Portland cement and lime mortar.
- Superior quality.

The best way to prevent weed growth is to keep joints full of a solid jointing compound.
MUD CONTROL GRIDS — GROUND REINFORCEMENT WITHOUT SUBSTRUCTURE

Paddock Slab
High performance grid made from recycled plastic. Anti-slip design with slight aperture size for homes excellent water drainage through the surface. Anti-rutting and weather resistant minimal groundwork preparation required. Very low maintenance & cost effective throughout product life. Interlocking design enables easy & quick installation. Easy to extend or remove at any time.

Mobile All-Terrain Slab
100% recycled plastic anti-slip design with slight aperture size for homes excellent water drainage through the surface. Anti-rutting and weather resistant minimal groundwork preparation required. Very low maintenance & cost effective throughout product life. Interlocking design enables easy & quick installation. Easy to extend or remove at any time.

Stabilising ground reinforcement: 10.69' x 19.69' x 2.09'H; $11.70/ea.

ENVIROMENTALLY FRIENDLY INTERLOCKING SYSTEM FOR TRUCK PARKING, REST AREAS & ACCESS ROUTES

Hahn
Permeable design Excellent water drainage water storage
In dry periods, surface stays moist longer. Up to 25% per 1’
Ground erosion
Prevents erosion, ideal for muddy paddocks, riding areas, parking lots, pathways.

High load
Meets high SLW vehicle usage spans, up to 60 metric tonnes DW 1072
Application options
Open cells can be filled with gravel, soil or seed.

PADDOCK SLAB
For animal paddocks, riding arenas, exercise runs & feeding areas. Frost and UV resistant. Connection system locks each slab.

MOBILE ALL-TERRAIN SLAB
Reach building projects via maintained lawns & gardens, with mobile all-terrain slabs to protect & provide safe access. Easy to install, quick to remove. The perfect mobile protection. Weather resistant: 24.41” x 49.21” x 1.57”

Stabilising interlocking system for car park, lay-by, farmyard or warehouse grids.
23.62” x 15.75” …………………..$8.81/ea.

STRAIGHTGRID 200
Lightweight geogrid for low segmental retaining walls. Ultimate strength 27.4kN/m. Use over soil core to significantly increase performance of sub-base & base material. Increase effective structure strength & potentially decrease aggregate thickness, and over excavation. For paved, unpaved roads, parking lots, and access roads.

6” x 150’ ……………………..$182.75/roll
6” x 150’ roll WITH FILTER ………..$182.75/roll

MIRAGRID 3XT
GeoGRID
High molecular weight, high tenacity, polyester multifilament yarns woven in tension and finished with PVC coating, inert to biological degradation and resistant to naturally encountered chemicals, alkalis and acids. 12” x 150’ …………………….$699.99/roll

LANDSCAPE FABRIC NON-WOVEN

DRAINAGE & EROSION CONTROL

Landscaping fabric for permanent landscape applications. Stabilizes soil, controls erosion separates soil profiles. UV resistant. Years of weak control. Gold commercial grade. 3” x 55” …………………..$22.60/ea.

A geogrid is a mesh-like system integrated into the construction of driveways and retaining walls to reinforce soil & gravel by providing additional support and redistributing the weight of pressure placed on the surface, across a wider area. GeoGrids are manufactured using polymers (polyester, polyethylene) known for their tensile strength and durability.

GeoGrids are great for uncompacted soil and subsoil layers which are susceptible to sinking / shifting—they are also an integral part of construction and improve your driveway’s performance & durability.

GeoGrids offer additional strength, significantly reducing the need for a thick gravel base, meaning significant labor and material savings. GeoGrids prevent vertical and horizontal movement of the gravel layer, ensuring your driveway has a Hapan comparable to your home. The more rigid base reduces the friction of daily use and heavy loads induced by foot traffic, cars and trailers parked on your driveway for extended periods, and the frequent movement of daily vehicle use.

GeoGrids are porous, meaning water can permeate through to the lower layers of subsoil—compatible with the use of environmentally friendly permeable driveway pavings, providing easy drainage, reducing surface water runoff and helping to replenish natural groundwater tables.

Installation further reduces the amount of excavation needed, making the environmental advantages of integrating a geogrid into your driveway construction, significant.

LANDSCAPE FABRIC GARDEN PINS

6” x 1”……………………….$42.05/bx
1000/bx………………………. $42.05/bx
1” x 1”……………………….$0.25/ea.

COURRUGATED DRAINAGE PIPE

With filter
Roll 5” x 100’ / 100mm x 30m $191.45/ea
Per linear foot…………………………….$2.15/lin.ft
Quick-E-Dual Adjuster

Ideal tool for adjusting your pavers. Rubber padded hammer on one side, hardened tooth on the other.

Quick-E-Dual Adjuster $116.20/ea.

Supercraft Mallets Dead Blow

Steel shot filled mallet head. Reduced rebound for absorption of impact energy without vibration (much easier on your joints). Robot-welded, maximum solidity of inserts made from special nylon with excellent impact quality. High durability, inserts replaceable. 40 mm... $99.60/ea, 50 mm... $98.60/ea.

Tufx Wheelbarrows

Extreme strength for heavy jobs. from... $202.86/ea.

Quick-E-Screeeder package

Quick-E-Screeeder Package includes the 3’, 4.5’, and 6’ L-screeders, plus adjustable, interchangeable handle. Blades are made of durable lightweight aluminum. Easy to use, and much less stressful on your knees and back– no more screed board for your knees!

Quick-E-Screeeder Package... $635.92/pc.

Quick-E-Scribes

Perfectly transfer cut lines from fixed edge to paverstraining wall, swirlily. Lightweight, portable, 5-in-1 tool transcribes: marking lines, radius caps on curved walls; irregular natural rock shapes; soldier/sailor rows on fixed surfaces & drop pavers in place; angles for perfect mitered corners (90°, 45°, 22½°)

Quick-E-Scribes... $215.22/ea.

Quick-E-Gauge

Accuracy is vital when installing pavers. Checking gravel & sand depth with a ruler often results in variances along an edge. Quick-E-Gauge quickly, easily & perfectly sets the base or setting bed height. Quick-E-Gauge’s screeding edge is adjustable for different thicknesses of pavers.

Quick-E-Gauge... $199.82/ea.

Simpex Mallet Plus Box

Includes 60 mm mallet, four different inserts of different hardness, and a free hat. One mallet, every paver, every job...

$116.20/ea.

Quick-E-Screeder Package

Quick-E-Screeder Package includes the 3’, 4.5’, and 6’ L-screeders, plus adjustable, interchangeable handle. Blades are made of durable lightweight aluminum. Easy to use, and much less stressful on your knees and back– no more screed board for your knees!

Quick-E-Screeder package... $635.92/pc.

Stronghold Aluminum Brick & Paver Restraint

Aluminum edging bands to your needs. Permanent, light fitting, for healthy turf growth and maximum lateral deflection. Quickly forms to curves, circles, angles and straight lines. Non-rusting zincaluminum, completely hidden, one piece does straight or curved pattern, 50” angles without cutting. Will not warp in heat or crack in cold. Easy insert connection system. Can install under pavers (not recommended by ICPI).

8’4” length... $13.85/ea.

Snap edge paver restraint

No extra connectors required. 100% recycled rugged injection molded plastic – strongest edging for vehicular & patio/trafficway applications. Easy to install with common 8”-12” spikes through tap joint connector. One piece system for straight/curved and complete radius without waste. open base lets grass grow along paver edge; install before or after paving; One gap creates curve; fewer spikes needed than other edging; saving time and money, 8 ft... $11.02/ea.

Proslide Aluminum Clean Edging

Commercial grade, sliding connection. Versatile, easy to install. NO stake at connection. Durable, lightweight, strong. Heavy-duty 1” stake anchor in the ground. 1/8” x 8’ x 8’. 14 box... $390.60/box Singles... $23.19/ea Black, 14 box... $477.40/box Black, singles... $35.59/ea.

Common Straight 10’ Steel Spikes

For Snap Edge edge restraint, Barrier landscape edge, landscape timbers, construction projects, securing landscape fabric, fences, decks & more. 50 lb., 5/8” x 10”.

Single spike... $0.49/ea, 50 lb. box (approx. 160 pc.)... $27.86/box

Stringalong

Make quick adjustments run several lines. High visibility. Great for hardscaping, surveying, fencing, cornices, masonry. Stringalong collar makes raising and lowering string lines quick & easy. Easily switch from a distance, unlike pencil marks, and built to last. Fits any round stake up to 1". Thumb screw sets the height. Stringing teeth hold string lines securely. String can be removed and put back-up without losing height. Single collar and thumbscrew... $4.48/ea.

Common Straight 10’ Steel Spikes

For Snap Edge edge restraint, Barrier landscape edge, landscape timbers, construction projects, securing landscape fabric, fences, decks & more. 50 lb., 5/8” x 10”.

Single spike... $0.49/ea, 50 lb. box (approx. 160 pc.)... $27.86/box

Wall Drain Pro

Easy installation. Aesthetically pleasing. Reduces labor costs. Designed for block 8” or smaller. Height can easily be modified for any size block or timber. Make and expands into 4” drain line

Kit... $15.30/ea.

Gator Spacers

Uniform spacing – unparalleled stability. Bond penetrates the riot holes, adhering porcelain tiles to the spacer, then hardens to minimum horizontal/vertical film movement. For 3/8”, 3/16” and 1/4” joint widths. Call for pricing

Gator Spacers... $6.48/ea.

Gator Base

Replaces concrete foundations and is engineered to replace 6” of crushed stone. Interlock panels distribute all dynamic loads to a very wide area, practically eliminating any pressure on the ground. Environmentally friendly and engineered to return water to the native soil through evacuation channels incorporated in the gator base. It will never leach chemicals or degrade in the native soil for over 100 years...

Wall Drain Pro

Easy installation. Aesthetically pleasing. Reduces labor costs. Designed for block 8” or smaller. Height can easily be modified for any size block or timber. Make and expands into 4” drain line.

### XL Ergo

- **Features**: Dual handles for each person to pick up material with ease.
- **Adaptor**: Some larger clamps require an adaptor.
- **Ease**: The gruelling task of installing heavy blocks and slabs is made easier.

### Specialty Landscape Tools

#### PM Stone Lifting System

- **1 Person**: PM 1AIR unit lifts pavers/slabs up to 70 lbs (32 kgs).
- **Models**:
  - PM 1AIR
  - Power Pack with 2 batteries + 1 hr Quick Charger
  - EZ Housing unit
  - ES 25' Hose

#### Quick-E-ERGO XL

- **Function**: Lifts blocks quickly & easily.
- **Capacity**: Adjusts from 17" - 43".
- **Power**: Holds up to 480 lbs.

#### EZ Step Clamp Lift System

- **Function**: Comes in 3 sizes with an optional hose attachment for use with installation equipment.
- **Capacity**: Perfect for lifting various materials including natural stone steps, curbing, & large stone retaining walls.
- **Adjustment**: Can accommodate different slab heights.

#### PRO-Safe Lift System

- **Function**: Heavy lifting apparatus. Safely turns any forked machine into a pallet crane in seconds! Lift up to 3500 lbs. 65 gauge industrial grade. Puncture & tear resistant. Highly stretchable plastic film.
- **Additional Features**: Easy to clean. Powder coated handles. Double-sided blade with serrated edge.

#### CF3 Pro Compactor

- **Power**: Premium operating compact. Quick, efficient, can be turned off on the go.
  - 4,500 lbs. centrifugal force.
  - 2.8 lb. machine.
  - Engine: Honda GX 160, 4-stroke, gasoline.

#### CR 7 Compactor

- **Power**: Superior impact power with a flexible width. The CR 7 for use in road construction and civil engineering.
  - 1,402 lbs. centrifugal force.
  - 545-1075 lb.
  - Engine: Hatz 1B 3 40 electric start diesel or Honda GX 50 gas.

#### SRV 620

- **Power**: The best in the industry and rammer of choice for rental. With a lower center of gravity, this machine demonstrates superior handling and climbing ability.
  - 148 lbs.
  - Base plate width: 11".
  - Variable 3-speed control lever

#### VPR 450 Paver Roller

- **Power**: Rolls gently over material preventing slabs/paving stones from shifting/tracking/breaking on the corners and edges. Sensitive concrete slabs with relatively low thickness can be gently vibrated and pressed into their bedding.
  - 14,625 lbs. centrifugal force.
  - Engine: Honda GX 160, 4-stroke, gasoline.

#### Quick-E-GRADE-RAKE

#### Buddy 4000

- **Power**: Use with any machine. 4000 lb. capacity, limited by machine's lift capacity (whichever is less).
- **Price**: $579.99/ea.

#### Buddy 3000

- **Power**: Make planting trees a breeze, deploy in seconds. Requires only 1 machine operator + 1 ground labourer to plant trees weighing up to 3500 lbs.
- **Price**: $665.00/ea.

#### Buddy 3000

- **Power**: Makes planting trees a breeze, deploy in seconds. Requires only 1 machine operator + 1 ground labourer to plant trees weighing up to 3500 lbs.
- **Price**: $665.00/ea.

#### Buddy 3000

- **Power**: Makes planting trees a breeze, deploy in seconds. Requires only 1 machine operator + 1 ground labourer to plant trees weighing up to 3500 lbs.
- **Price**: $665.00/ea.

#### Buddy 3000

- **Power**: Makes planting trees a breeze, deploy in seconds. Requires only 1 machine operator + 1 ground labourer to plant trees weighing up to 3500 lbs.
- **Price**: $665.00/ea.

PROPERTY MAINTENANCE • CONSTRUCTION • DESIGN

TRANSFORM YOUR LANDSCAPED PROPERTY FROM BEAUTIFUL TO STUNNING.

Design, Installation and Service
Return & Refund Policy

• A copy of the original invoice must be provided at time of return at the purchasers’ responsibility.
• Any refund will be issued the same manner of payment as it was originally made.
• Approval returns must be within 30 days of invoice date.
• Cheques must clear 10 days before cash refund.

Items APPROVED for return (return fee applicable)

• Undamaged, snapped, uncut merchandise in original package. We may accept partial / opened/parts at the manager’s discretion.

• “Stocked” product is returnable with a 10% restocking fee. (“Stocked” refers to items not stocked by Stone Landscapes Inc.)

Note: Responsibility for return rests with the buyer. Any request for Stone Landscapes Inc. to pick up authorized return material is subject to delivery charge (see delivery fee chart). Pick-ups done at the convenience of Stone Landscapes Inc.

Some “Non-stock” product is returnable with a 25% restocking fee. (“Non-stock” refers to items not stocked by Stone Landscapes Inc.)

Note: Responsibility for return rests with the buyer. Any request for Stone Landscapes Inc. to pick up authorized return material is subject to delivery charge (see delivery fee chart). Pick-ups done at the convenience of Stone Landscapes Inc.

Any product picked up by our drivers (exsuperabundant return pick-up), must be wrapped properly, per MTO standards, on skids, before the driver arrives.

Credit Policies

• All customers are required to open a credit line. A credit application and approval through a credit check.
• All credit customers must keep their account in good standing, according to our terms of Net 30 days from invoice date.
• A 6% interest charge per month is applied to all outstanding invoices over 60 days from the date of invoice. This charge becomes part of the total amount due. On any consecutive months, or part months thereof, where payment is still overdue, 6% interest is added to the total amount outstanding which includes any previous interest charges.
• A full return on any merchandise purchased is non negotiable.
• All commercial accounts are monitored. Any account that abuses payment terms will go on credit hold and further charging privileges may be revoked.

Pickup Processes & Guidelines

• Picking up your own products can save time and money, but you may need multiple trips due to weight, size and vehicle capacity.
• Vehicles must be loadable by our loader, from the top. We won’t load closed top vans through back doors or pick up trash cans or lids that open less than 90° from the back. If your vehicle is not in a condition suitable for carrying the material, we may not load.
• No loose material such as mulch, soil or aggregate can be loaded into a personal vehicle.
• Check the pressure and load rating of your tires. Close all gaps so material (picks/cracks) can’t fall out of your truck or trailer while driving.
• Safety of the others on the road is extremely important to us.

Loading

• For small projects or amounts less than a yard, we carry bagged products, easily loaded into vehicles, clean and easy to transport. Due to safety, we cannot permit customers to unload product into bags, crates, unloading vehicle or any other vehicle at our facility.

• Very capable employees perform our loading. All loading personnel undergo a training program and demonstrate knowledge and skills in all facets of front end loader operation and safety before they can load. If you are worried about your vehicle, we suggest you bring protective padding (tarp or blanket) for the side of your truck. We will load at your risk, if you are concerned, we offer delivery.

Payment

• Payment required prior to delivery through head office or retail – no COD’s.

• Actual prices are extra

• Stock loads are determined by weight, not volume. If we can combine deliveries we suggest you keep a累计 of your items & call ahead so the driver can accommodate.

• Our delivery fees are subject to change due to the volatility of fuel prices and are non-negotiable.

• For excessive delays (30+ min) or placement charge requiring additional delivery time, you are billed at $100/hr.

• We take telephone orders during business hours, but recommend viewing product in store before ordering.
Turning your dreams into reality
Design your space with Stone Landscapes

“We can throw stones, complain about them, stumble on them, climb over them, or build with them.”

William Arthur Ward
